3. Rule 40

or by contacting: athletes@olympic.org

4. Medical

The IOC will require all athletes currently in a whereabouts system to include sufficient details to be easily located from the date of the opening of the Village on 24 July 2016, up to and including 21 August 2016, the date of the Closing Ceremony.

The IOC will be using ADAMS and the responsibility for whereabouts will mainly lie with the athlete and the NOC.

For those athletes not on a whereabouts system, requirements may include the submission of location information through a simplified WADA Major Games Application by the athlete. In specific cases, the relevant IF or National Anti-Doping Organisation (NADO) will be asked to include athletes in their formal whereabouts system.

The Olympic Games are “needle-free” for all participating athletes. Needles may be used only by qualified medical practitioners for clinically justifiable treatment (which must be declared on the designated form to the IOC) or by athletes for self-injection if they hold a relevant TUE (e.g. for insulin).
